FELBER C14

DESIGN: DIETIKER, 2014

The innovative concept of THE FELBER COLLECTION furniture allows today‘s people to let their creativity flourish. This collection is highly modular and yet immediately recognizable as Dietiker at first sight. The chair was inspired by a 1940s Dietiker chair. The Felber C14 series offers a flexible solution for multiple interior settings, from cafeterias, to dining at home, to meeting rooms and even religious facilities. The stackable chair is available with or without armrests, and inlaid or full unpholstery for the back and seat.
Row connections are optional. The Felber collection consists of chairs and tables.

TECHNICAL DATA

CONSTRUCTION

C14 Wood: Massive wood frame with easily interchangeable seat and back.
C14 Metal: A welded structure, with a 16 mm highly resistant steel tube.

Easily interchangeable seat and back, which can also be exchanged subsequently.
Seat and back 8-ply glued, beech plywood ergonomically molded. The seat is fixed with metric screws, and the back has a quick change mechanism.

CONFIGURATION

Standard: Seat and back in molded plywood
Options: Seat only or back and seat with inlaid upholstery
Seat and back fully upholstered
Flame retardant foam padding

ARMRESTS

Metal armrests for C14 4ft. Metal can be retrofitted, optional with rubber tube.

STACKING PROTECTION

Standard for seat non upholstered: Plastic bumper
Standard for upholstered seat: Black plastic stacking plate

WOOD OPTIONS

Standard: Beech
Option: Oak with surcharge, other types of wood on request

WOOD SURFACE TREATMENT

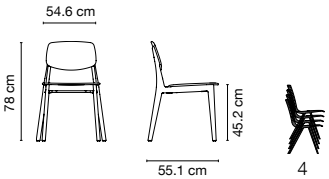

Stained with a water-based stain, highly resistant to light, based on dye / pigment inks.
Varnished with a varnish 2-component water-based, PU-based with very good resistance to light and a protective effect to light (UV filter).
Meets the highest standards according to DIN 68861 and the high fire safety regulations (hardly inflammable).
The same applies for the solvent-based paints used for oak.

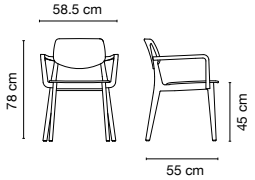

GLIDES

Standard: Plastic
Option: Felt

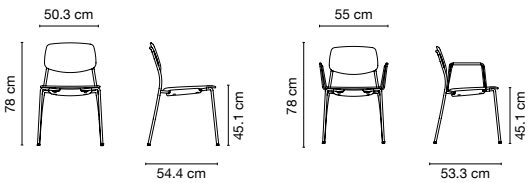

DIMENSIONS

C14 4ft. Wood

C14 4ft. Metal

Weight	4.8 - 6.1 kg
Fabric requirement	0.55 lfm.
Leather requirement	0.52 m^2
Load up to	110 kg
