QUADRO W

DESIGN: BRUNO REY & CHARLES POLIN, 1989

With their square design and modern appeal the Quadro range are timeless classics. Quadro wood is a high quality stackable event chair with optional upholstery on seat and back. Available in beech.

TECHNICAL DATA

CONSTRUCTION

All parts are joined together using high-precision miniature finger joints. Using comparably small wood cross sections, these guarantee high strength at a low overall weight
Legs made of solid, unbent beech with a cross section of 45/25 mm
Back frame sides made of bentwood
The back frame is connected to the seat frame using four chromed flexible springs Ø 8.0 mm; these promote dynamic sitting and make the armchair very comfortable.
Plywood armrests are thicker at the ends and they are screwed into a chromed tube to attach them to the seat and back frame.
Moulded plywood seat and back, approx. 5 mm thick

CONFIGURATIONS

Standard: Seat with inlaid upholstery
Back in beech with milled grooves
On request: Fully upholstered seat and back
Option: Seat and back with inlaid upholstery
Flame-retardant foam padding

TYPE OF WOOD

Standard: Beech

ARMRESTS

Armrests in beech
